Welcome to the Canada School of Public Service Digital Academy

The CSPS Digital Academy provides public servants with the skills and knowledge they need to deliver digital-era programs, policies, and services.

It supports the principles of Canada's Beyond2020 (https://www.canada.ca/en/privy-council/services/blueprint-2020/beyond-2020.html) initiative for an agile, inclusive and equipped workforce and advocates for a digital-first approach that aligns with Canada's Digital Standards (https://www.canada.ca/en/government/system/digital-government/government-canada-digital-standards.html). These ten digital standards form the foundation of the government's shift to becoming more agile, open and user-focused.

- Video: How to Be Digital in the Government of Canada (DDN2-V14) (https://www.csps-efpc.gc.ca/video/digital-government-canada-eng.aspx) - This video shows you how you can increase your team's performance while changing how we plan and deliver programs and services in a digital government.

Digital and data learning

Explore a range of foundational courses, job aids and other learning tools on a variety of digital and data themes. Topics include digital government, product management, Agile, service design, the cloud, cyber security, data, AI, and digital-era leadership.
